

REMARKS

Claims 1 through 3, 6 through 26, 28 through 41, 43, and 45 through 108 are currently pending in the application.

Claims 4, 5, 27, 42, and 44 have been canceled.

Claims 31 through 39 are allowed.

This amendment is in response to the final Office Action of August 4, 2004.

Objections to the Specification

The disclosure stands objected to because the status of the various copending applications had not been updated. Also, Applicants' Amendment filed April 5, 2004 stated that a substitute specification along with a marked up copy of the specification were attached, but the attachments were not received. A substitute specification in clean form and including paragraph numbers [0001] through [0059] is attached hereto as Appendix A, and a marked-up substitute specification to clearly identify amendments is attached hereto as Appendix B. The substitute specification updates the status of the copending applications, as required by the Examiner.

35 U.S.C. § 112 Claim Rejections

Claims 28 through 30 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicants regard as the invention.

Applicants have amended the claimed invention as suggested by the Examiner for the presently claimed invention to particularly point out and distinctly claim the subject matter of the invention to comply with the provisions of 35 U.S.C. § 112. Therefore, presently amended claims 28 through 30 are allowable under the provisions of 35 U.S.C. § 112.
